

DESIGN

This phase is about generating your improvement ideas and solutions and agree which one or ones to test first. Once agreed, you will then design and add the detail to your chosen solution/s and decide how you will measure whether this /these have made an impact.

GENERATE IDEAS

BUILD DETAIL

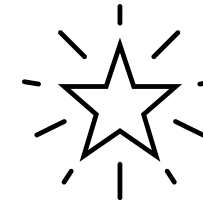

MEASURE IMPACT

Brainstorm ideas that will make an improvement

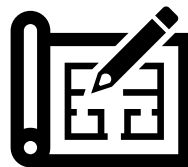

Agree the change with the group

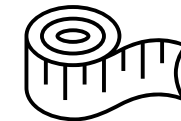

Agree what success looks like

How do these different ideas compare against the goal?

Design the change

Decide how you are going to measure the impact of change
